Ex. 6 Personal Privacy (PP)

Thank you for emailing me your comments on the draft UIC Dewey-Burdock permitting actions. I have added your email to the list of public comments received. I have also added you to my contact list to keep you informed on future EPA actions related to the site.

Here is the link to the EPA UIC program website that contains all the information in the Administrative Record, in case you do not already have it:

<https://www.epa.gov/uic/administrative-record-dewey-burdock-class-iii-and-class-v-injection-well-draft-area-permits>

The public comment period is in effect through May 19, 2017, in case you have any additional comments after reviewing this information.

Thank you!

Valois

Subject: UIC Area Permits to Powertech (USA)

Dear Madam

My initial thought when I heard of the proposed permits was "are they out of their minds?"

Who in their right minds would risk the drinking water for tens of millions of people, and the irrigation water of millions of acres of land for uranium mining?

I've worked in industrial hygiene and I can tell you that there's no way to make a project like this safe enough, secure enough to risk water for.

Do you realize that around the world there are major droughts happening? On at least three continents? And that has included this continent? Water is our most precious resource right now

and it is not worth one penny's worth of profit to risk permanently damaging an aquifer like the one in South Dakota.

Drop this insane plan.
